

SCHÖNES WETTER!

TFA®

WEATHERDISC

30.5037.02 WeatherDISC Bluetooth Thermo-Hygrometer for Smartphones

Make your smartphone into a **mobile weather station!** Download the free app and connect to your **WeatherDISC** transmitter via Bluetooth.

Useful App with weather forecast

The app allows you a **clear overview** of the **indoor climate values** and information about the **weather conditions** for your current position with **chance of rain**, **wind strength** and **windchill temperature**. Additionally you can retrieve a **5 day weather outlook**.

For easy indoor climate control for up to 8 rooms

Place the sensor in bedroom, greenhouse, wine cellar or the living room and you can easily monitor the indoor temperature and humidity. The app can manage up to 8 WeatherDISC transmitters.

Transmission via Bluetooth

Temperature and humidity are transmitted up to 30 m via Bluetooth (BLE 4.0) to your smartphone.

- **Simple pairing with your smartphone**
- **Continuous update (within range)**
- **Language selection based on location setting**
- **Works with iPhone 4S (or newer), iPad 3 (or newer), iPod touch 5. Generation (or newer) and other smartphones with Android (4.3 or newer) and Bluetooth 4.0 Smart Ready**
