BIG-AIR-MONITOR

## 60.2527.10 Radio Controlled Clock with Air-Quality-Monitor

**Headache, dizziness and fatigue** are often due to an excessive concentration of volatile organic compounds from natural and artificial sources of emissions.

**The air quality sensor detects more than 5000 substances in the air**

Our **BIG AIR MONITOR** shows you how used and polluted your air really is. It allows you then to **ventilate in an energy efficient way** and to ensure **a healthy indoor climate** at home or in the office.

- Different levels to indicate the air quality
- Detection including Formaldehyde, solvents, carbon monoxide, methane, or cigarette smoke
- Acoustic and visual alarm function
- Displays indoor temperature and humidity
- Includes radio controlled clock and date (European time signal - DCF 77)
- Time alarm with snooze function
- Back illuminated display

### Technical data:

- CO<sub>2</sub>-equivalent: 450 to 6950ppm
- Measuring range temperature: -9,9 to 59,9°C (14,1 to 139,8°F)
- Measuring range humidity: 20 to 95% rH
- Time zone change function to conversion to different time zones
- Manual Time setting if radio controlled time function is disabled
- Dimensions: 150 x 50 x 86mm
- Weight: 161g
- Includes batteries (2 x 1,5V C)
