

CUBE-TIMER

TFA®

Very easy to use:
one turn, countdown starts

Innovative and easy to use timer

It has never been easier to set a timer. Simply place the cube with the desired time facing up and the counting down starts immediately.

The right cube for every application

Depending on the application, the CUBE-TIMER is available in different colours and time combinations.

Applications:

- School and education: ... for class work, homework, foreign languages chemistry, physic lessons
- Sport: ... for training, leisure time competition, workouts and PE lessons
- Kitchen: ... for the perfect breakfast egg, the preparation of tea, cake or steak
- Leisure: ... for board games, beauty treatments or an afternoon nap

- **Easy time management for home, school, education, sports and games**
- **With 4 pre-set countdown times**
- **Pulsating LED when the timer is running**
- **Automatically rotating flip display shows the remaining time**
- **Timer counts up the elapsed time until the alarm is stopped**
- **Optional pre-alarm shortly before the end of the countdown**
